COMMUNITY

UNIVERSITY OF ILLINOIS (CHAMPAIGN)

Packaging with Impact 2015

TricorBraun sponsored project with the junior Industrial Design class. Taught basics of packaging design while challenging students to propose a researched based solution to address the needs of consumers.

UNIVERSITY OF ILLINOIS (CHICAGO)

ConnectID Mentor 2012-2014

Meet with students to review work and provide guidance on succeeding in the academic + professional design world.

EXPERIENCE

TRICORBRAUN

Industrial Design Manager

March 2016 - Present

Lead development of the Package Design team with two direct industrial design reports. Assign incoming creative projects, review deliverables presented to vendors/customers, and support the continued growth of the team. Possess a keen ability to read and speak design language, comfortably present to a non-design audience, and provide strong written communications. Take lead on priority customer projects and design centric presentations.

Industrial Designer

July 2011 - February 2016

Create custom packaging solutions for range of domestic and international clients. Primary focus in blow molded plastic, glass, and injection molded designs. Realize and refine concepts through carefully curated inspiration boards, SolidWorks modeling, renderings, FDM and Objet prototyping. Travel to core accounts to present TricorBraun design capabilities and provide tailored, on-site service to their projects. Hold 6 design patents to date.

ELKAY MANUFACTURING CO.

Industrial Design Intern

May 2010 - August 2010

Led color development project for a line of composite sinks, final color recommendation was selected for production. Conducted user research interviews and assisted in market research analysis. Contributed to concept ideation for sink, faucet, and water cooler related projects. Worked closely with marketing, engineering, and on-site sink manufacturing facility throughout development process.
